

Pre-purchase information

This is a summary of what our car insurance covers. The insurance policy also contains important limitations. These are shown under the heading "Important limitations in the car insurance". You are entitled to receive this information before you decide to take out the insurance. It is therefore important that you read it together with the quote so that you clearly understand what the policy covers. We recommend that you save this document. Full terms and conditions are available at if.se/din-bmw. You can also obtain them by contacting our Customer Service. Compensation for loss or damage is always indemnified in accordance with the full terms and conditions.

Who is insured under the policy?

The insurance applies to you if you are the car's owner and principal user or, if it is leased, you are registered as the user in the Road Traffic Register and are the principal user of the vehicle. Third Party Liability insurance also applies to customers who suffer damage as a result of a road traffic accident.

Where is the insurance valid?

The insurance policy only provides cover in the countries that are members of the Green Card System. The insurance policy (excluding of Third Party Liability insurance) does not apply in Iran, Morocco and Tunisia.

What does the insurance cover?

The insurance policy covers the car itself and any equipment considered normal for cars. Car stereo, telecommunication and other electronic equipment (including navigation systems) are covered by the insurance if they are permanently fitted. Any equipment that has been dismantled from the car, such as seasonal wheels for the car, is also included.

Select the scope of cover that matches your needs

The foundation of car insurance is Third Party Liability insurance, which is mandatory by law. However, most customers purchase Partial Cover insurance or Fully Comprehensive insurance. In some cases, a Car Damage Warranty may apply to new cars. If your car does not come with a Car Damage Warranty, you may need to take out Collision Damage insurance, which provides you with Fully Comprehensive insurance. You may also supplement these insurance policies with a number of additional insurance policies.

Third Party Liability insurance

Third Party Liability insurance is mandatory by law and provides cover for personal injury to drivers, passengers and other persons outside the car. It also provides cover against damage to other people's property, for example if you drive into another vehicle or traffic barrier.

Partial cover insurance

In addition to the content of Third Party Liability insurance, the following is also included:

FIRE

Provides cover for damage to the car resulting from a fire, lightning strike, explosion or short circuit.

THEFT

Provides cover in case the car is stolen or damaged following a burglary/attempted theft, and crisis therapy if you are robbed of your car or have your car keys snatched. The insurance also covers equipment and accessories that are normal for cars.

ROADSIDE RESCUE AND RECOVERY

Towing to a garage if the car is involved in a road accident, theft or other breakdown. Cover for the cost of transporting the driver, passengers and private luggage back to the home address.

GLASS

Payment for repair or replacement of crushed or ruptured glass panes.

MISFUELLING

Provides cover for the necessary cleaning of the tank, containers, pipes and filters, as well as for any consequential damage directly resulting from putting the wrong fuel in the car's fuel tank, or another tank or car container, other than that specified by the manufacturer. The insurance applies if the car is up to 20 years old or has mileage of less than 200,000 kilometres, as long as the car has at least Partial Cover insurance. The maximum amount reimbursed is SEK 100,000. For private customers, the deductible is SEK 4,500, and for corporate customers it is 10% of the price base amount.

MECHANICAL AND ELECTRONIC BREAKDOWNS

For vehicles younger than 8 years old with mileage of less than 150,000 kilometres, the insurance provides cover for sudden failures that affect the performance of the engine, electronics, gearbox and transmission.

LEGAL ASSISTANCE

Pays representation and legal costs of up to SEK 250,000 for disputes relating to car ownership.

Fully Comprehensive insurance

Fully Comprehensive insurance consists of Partial Cover insurance, as well as Collision Damage insurance or a Car Damage Warranty. For new cars, a three-year Car Damage Warranty from the car dealer is often included (see the purchase documents). If your car did not come with a Car Damage Warranty, you should take out Collision Damage insurance.

COLLISION DAMAGE INSURANCE

Collision Damage insurance provides cover for damage to the car in case of collision or an act of vandalism. The insurance

also provides cover for the cost of damage caused by other external incidents, e.g. the wind causing a tree to fall onto your car. You can help to determine the premium yourself by selecting any of the following deductibles: SEK 2,500, 4,500, 7,000 or 10,000. If you represent a company, you have the option of selecting between 10% of the price base amount or a fixed deductible amount.

DEDUCTIBLE BENEFIT IN CASE OF CAR DAMAGE WARRANTY CLAIM

In the event of damage covered by the Car Damage Warranty, the insurance reduces the deductible according to the Car Damage Warranty certificate by SEK 3,000. The car needs to have at least Partial Cover insurance or Temporary Deregistration insurance with us at the time of the accident.

TEMPORARY DEREGISTRATION INSURANCE

During periods that you do not drive and the car is temporarily deregistered, you can change the policy to Temporary Deregistration insurance, which provides cover for theft, fire, misfuelling, legal expenses, and collision damage. This insurance applies in Sweden.

NEW VALUE AND ADDED VALUE IN CASE OF TOTAL LOSS AND REPLACEMENT OF A PASSENGER CAR (DOES NOT APPLY TO PERSONAL CAR LEASING)

This applies to passenger cars not older than two years or that have mileage of less than 40,000 kilometres, which have been stolen or are a total loss. This event is reimbursable through the car's policy or its Car Damage Warranty provided by us. We will reimburse you for the cost of a new car of the same type and model if:

- the car is no more than one year old and has mileage of less than 20,000 kilometres, and if the repair costs exceed 50% of the car's market value immediately before the loss event;
- the car is no more than two years old and has mileage of less than 40,000 kilometres, and if the repair costs exceed 80% of the car's market value immediately before the loss event.

For cars older than two years or that have mileage of more than 40,000 kilometres, where the loss or damage is to be compensated up to the value of an equivalent car, you will receive compensation, in addition to the car's market value, amounting to 20% added value. This will apply if you select a passenger car from an authorised car dealer that is the same brand as the damaged car. The compensation is paid only to the car dealer and may only be used to compensate the cost of purchasing a new car.

Important limitations in the car insurance

The insurance policy contains various limitations. There are terms and conditions under which the insurance is not valid in certain situations and there are conditions concerning safety regulations, i.e. instructions telling you how to behave to reduce the risk of injury. If a safety regulation is not complied with, a specific deduction may be made from the indemnity, and in some cases there will be no indemnity at all. There are also other limitations in the insurance policy. You can read more about the various limitations in the full terms and conditions available at [if.se/din-bmw](#). Below we detail some of the most important of these types of limitations.

This insurance does not apply for example to

- Driving on racing tracks and circuits intended for motor vehicles, e.g. the Anderstorp Raceway, Gotland Ring, Mantorp, the Nürburgring incl. the Nordschleife, etc. (This exclusion does not apply to Third Party Liability insurance).
- Situations when the car has been rented for commercial purposes, or in exchange for payment, for example, for car sharing, car pools, etc., or when it has been used by driving schools or for delivery services.
- Cars that have been abroad for more than 182 days during the 12 month-period after the damage event.
- Damage covered by or reimbursable under a supplier warranty or similar.

Safety regulations

You must ensure that:

1. The driver has the type of licence required to drive the car.
2. The driver is not found guilty of drunk-driving.
3. The car is not used after being issued with a road-worthiness prohibition. If you can show that the loss event would have taken place irrespective of the reason for the prohibition, you may receive compensation.
4. The car is not used in competition or training for competition or in competition-like situations such as street racing.

Other major limitations

- Car stereo or similar electronic equipment is only covered by the policy if it is integrally fitted, meaning tools would be required to remove it. Claims for non-factory fitted equipment are capped at SEK 25,000 (incl. fitting).
- Claims for fixtures such as racks, cabinets, shelves and drawers in vans (max. 3,500 kg gross weight) are capped at SEK 50,000. The equipment must be fitted by a general agent or by its authorised fitter.
- Limited or no compensation will be paid from mechanical and electronic equipment insurance for cars not serviced according to the manufacturer's instructions, if damage to a component and/or consequential loss of the damaged component, may be due to the lack of servicing. Compensation of no more than 50% of the amount determined by the loss assessor will be paid if the car has not been serviced according to the manufacturer's instructions on a single occasion. No indemnity will be paid if the car has not been serviced on more than one occasion. This also applies if the car was not serviced according to the manufacturer's instructions in the period of time before the insurance was taken out.
- The maximum cover provided under this insurance (exception of Third Party Liability Insurance) is SEK 4 million.
- For cars older than 30 years, the maximum cover provided under this insurance (except for Third Party Liability insurance) is SEK 1.5 million.

How we calculate the price of your insurance

We take several factors into consideration when calculating the price.

PRIVATE CUSTOMERS

The price is affected by the car model, the age of the car and whether the car is directly imported. It also depends on the distance you drive each year, your age, the length of time you have held a driving licence, where you live, if you have a payment note, your bonus class and any previous claims.

CORPORATE CUSTOMERS

The price is affected by the car model, the age of the car, whether the car is directly imported, vehicle type and method of use, registered office address, annual mileage and bonus. The price is calculated based on the zone in which the company is situated.

Easy to pay*

You are free to select the payment method and frequency that suits you best: a single payment for a full year, two half-year payments, or payment by monthly instalments.

An invoicing fee will be charged to customers requiring a paper invoice. No invoice fee is added when you pay by e-invoice to your internet bank or arrange to pay by direct debit. E-invoices are offered to private customers and sole proprietorships.

When the insurance is taken out

As soon as the insurance is taken out, we will send the insurance policy along with the rest of the documents. Please remember to check that the insurance information is correct. The insurance is valid for one year and will be renewed automatically in good time.

We process our customers' personal data in accordance with the applicable insurance and data protection law. More information about the processing of personal data is available on our website.
