

Horse Insurance

Information and facts before purchasing, February 2022

This is a summary of what our Horse Insurance covers. The insurance also contains important limitations and safety regulations. These are shown under the heading "Important limitations and safety regulations in the horse insurance". You are entitled to receive this information before you purchase the insurance policy. It is therefore important that you read this information together with the quote so that you clearly understand what the policy covers. We recommend that you keep this document. For the full terms and conditions, please visit our website at if.se. You can also obtain them by contacting our Customer Service department. Claims are always paid in accordance with the full terms and conditions of the policy.

Who is insured under the policy?

The insurance is valid for you as the policyholder and owner of the insured horse. The insurance may also cover the one who is a feed host.

Where does the policy provide cover?

The policy applies within the Nordic region. It also applies if the horse is temporarily staying outside the Nordic region for at most 1 year provided that we have been informed and approve the stay abroad before it is initiated.

When can the horse be insured?

You can insure your horse as early as the day after it is born and up until it has turned 16 years old.

How long is the insurance valid?

The insurance is valid for the dates specified in the insurance policy. Veterinary care insurance can be in place for the entirety of the horse's life but the life insurance policy expires when the horse is 25 years old.

What is insured under the policy?

You may choose between three different veterinary care insurance policies and there are two different life insurance policies available. The type of insurance that you select for your horse depends on how you use your horse and how extensive you would like your protection to be.

Veterinary Care Insurance

LIMITED VETERINARY CARE

Compensation for the costs of veterinary care is provided for the following diagnoses/injuries:

- Fracture, bone fissure, acute wounds
- Throat obstruction and colic
- Caesarean

The maximum compensation is SEK 60,000 per year.

VETERINARY CARE

You will be reimbursed for veterinary care costs if the horse becomes ill or gets into an accident.

The maximum compensation is SEK 90,000 per year.

VETERINARY CARE EXTRA

You will be reimbursed for veterinary care costs if the horse becomes ill or gets into an accident. The maximum compensation is SEK 130,000 per year. With this insurance you will also receive compensation for costs for the veterinarian's travel and visit, for medicine and rehabilitation prescribed by the veterinarian after accident or illness covered in the insurance, and for costs if the horse has to be euthanized.

FOALS

Veterinary care costs for foals are paid through the mare's insurance (for Veterinary Care and Veterinary Care Extra) with a maximum of SEK 35,000 during the first 20 days of the foal's life. The insurance does not provide compensation for illness or accident if compensation has been paid out from a separate Foetus and Foal Insurance.

Life insurance

LIFE INSURANCE

You will be reimbursed the insurance amount if the horse dies or if the veterinary assesses that the horse must be euthanized.

LIFE INSURANCE WITH USABILITY PROTECTION

This is the most comprehensive life insurance and the coverage is available for all types of horses except trotter and gallop horses in training. You will be reimbursed the insurance amount if the horse dies or must be euthanized. You can also receive partial reimbursement if the horse can no longer be used for the purpose for which it was insured. With this insurance, you can receive reimbursement if the horse must be euthanized or no longer can be used due to lameness.

FOETUSES AND FOALS

Life insurance for the mare includes insurance for the mare's foetuses and foals up until the foal is 20 days old. You can receive compensation for 10 % of the mare's insurance amount, but not more than SEK 10,000 if the foetus or foal dies. It is possible to increase the amount as needed.

The insurance does not provide compensation if compensation has already been paid out from a separate Foetus and Foal Insurance.

Free extra protection when you have both your horse and home insured

If you purchase home insurance of the type Stor Hem or Stor Villa and a limited or ordinary Veterinary Care insurance policy or Veterinary Care Extra from If, you will also get this insurance cover free of charge:

CANCELLATION PROTECTION

If you need to cancel a booked or paid trip because your horse becomes ill, you will be reimbursed for what the trip cost you in accordance with the applicable terms for cancellation protection in the Householder Insurance Super or Homeowner Insurance Super plans.

REPLACEMENT TRIP

If you are on vacation, you can get a replacement trip if you need to come home early because your horse becomes ill or injured.

ACCIDENTS

If a person is injured in an accident caused by your horse, that person will receive reimbursement for damage to their teeth,

travel and treatment costs, medical disability and death benefit according to our insurance terms for accident insurance.

The insurance amount for medical disability is 5 price base amounts and for death benefit it is 1 price base amount.

PERSONAL PROPERTY COVER

The Stor Hem and Stor Villa insurance provides cover for items you have with you in the stall, up to SEK 80,000.

Important limitations and safety regulations for the horse insurance

The insurance policy contains certain limitations. There are terms and conditions which mean that the insurance does not provide cover in certain situations and there are terms and conditions on safety regulations, in other words, instructions explaining what to do in order to minimise the risk of loss, damage and injury. Failure to observe the safety regulations may result in your compensation being reduced.

For more information about which safety regulations apply for each claim, please refer to the full terms and conditions at www.if.se. Some of the main limitations/regulations in the insurance are listed below.

General limitations

CONGENITAL OR PRE-EXISTING ILLNESS OR INJURY

The insurance is not valid for congenital illnesses or injuries or those that existed (pre-existed) prior to when the insurance entered into force regardless of when the illness or injury was first noticed. This also applies if a change is made to the scope of the insurance cover.

COMPLICATIONS

The insurance is not valid for complications from an injury or illness, examination or treatment that is not covered by the insurance, other than for vaccinations.

WAITING (QUALIFYING) PERIOD

During the first 20 days starting on the inception date, the insurance is only valid for accidents. If the premium is not paid on time, day 1 of the waiting period will be the payment date.

WAITING (QUALIFYING) PERIOD FOR DRUGS, ETC.

The insurance is not valid for injury, illness, examination or treatment if the horse competes or trains at a level equivalent to competition for the applicable waiting period as regards certain substances, treatments or special measures.

Specific limitations

LIFE INSURANCE

Life insurance expires when the horse turns 25 years old. The insurance does not apply if the horse must be euthanized due to lameness resulting from anything other than fracture, fissure, wound or severed tendon. Neither does it apply for spinal injuries or illnesses.

LIFE INSURANCE WITH USABILITY PROTECTION

The insurance does not apply for euthanization or unusability due to temperament or behavioural disorders, nymphomania or because of problems requiring the horse to be withdrawn from breeding. Neither does it apply for loss of foetus more than twice per mare.

VETERINARY CARE

The insurance does not apply for veterinary care to address temperament or behavioural disorders or nymphomania. Neither does it apply for operations or other treatment of congenital defects, such as umbilical hernia or preventive treatment, such as vaccination. Care due to dental or bite problems that is not directly related to an accident is not reimbursed.

VETERINARY CARE EXTRA

The insurance does not apply for veterinary care to address temperament or behavioural disorders or nymphomania. Neither does it apply for operations or other treatment of congenital defects such as umbilical hernia or vaccination or other preventive treatments. Care due to dental or bite problems that is not directly related to an accident is not reimbursed. Prescribed rehabilitation must be started before 30 days after the last veterinary treatment and must be done within the deductible period.

CANCELLATION PROTECTION

Does not apply to travel that costs less than SEK 1,000 per person or SEK 2,000 for the household or for travel with a duration intended to be less than 2 days. Maximum compensation is SEK 40,000 per person or SEK 120,000 per family. It is, however, required that the illness was not known at the time when the booking was made or at the time when final payment was made.

REPLACEMENT TRIP

The injury or illness may not be in any way related to illness, injury or symptoms that the horse was experiencing before the start of the journey.

PERSONAL PROPERTY COVER

You must store and manage your property in a way that minimises the risk of theft.

Foetal and Foal Insurance

This is a separate insurance that may be purchased between the 40th and 300th day of the gestation period for a confirmed pregnancy of a breeding mare between 3 and 21 years old. The insurance is valid for the foetus/foal and it covers one gestation period, expiring when a separate insurance is purchased for the foal but no later than when the foal is 30 days old. The insurance covers life insurance and veterinary care insurance for the foal. The maximum compensation you can receive is the life insurance amount for two lost foetuses/foals per mare. The highest compensation for veterinary care is SEK 60,000 per insurance year. Compensation will not be paid out from the Foetus and Foal Insurance if reimbursement has been made from another insurance.

Disclosure of medical records

In cases where If needs to consult the animal's medical records in order to settle the insurance claim, If has the right to obtain these from veterinary clinics/animal hospitals and the Swedish Board of Agriculture.

Deductible

For veterinary care insurance, you must pay a portion of the insurance claim yourself, which is called a deductible. We have two fixed deductibles of SEK 2,700 or SEK 5,000. You pay the fixed deductible once per deductible period. In addition to the fixed deductible, there is also always a variable portion of 20 % of the remaining amount after the fixed deductible has been deducted.

Would you like to discuss horse insurance with us?

We would be happy to tell you more about our horse insurance policies. Call us at 0770-117 177 or contact your agent. You can also visit if.se to see a list of our agents and where they are located.

How we calculate the cost of your insurance

When we calculate the price of your insurance, we take several factors into consideration, such as the value of your horse, its breed, gender and age.

Payment made easy

You choose the method and intervals of payment that suit you best: annual, half-yearly or monthly. If you want to receive printed invoices, a charge of SEK 25 will be made for each one. You will not be charged any additional fee if you pay via direct debit or electronic invoices sent directly to your online banking service.

When you have purchased your insurance

As soon as the purchase is complete, we will send the insurance policy documents and other documents to you. Please remember to check that the information in the insurance policy documents is correct. The insurance is valid for one (1) year at a time and is renewed automatically and in good time.

Personal data

At If, we process our customers' personal data in accordance with the relevant insurance and data protection legislation. You can find more information about how we process personal data at if.se.
