Our Accident insurance provides you with cover if you suffer permanent injury as a result of an accident (medical disability). Our Illness and accident insurance provides you with cover for illness and accidents. The cover is therefore more comprehensive.

Who is insured under the policy?

The insurance covers the person specified in the insurance policy documents as the insured person. You must live and be registered in Sweden. Accident insurance can be taken out by people between the ages of 0 and 70. Illness and accident insurance can be taken out by people between the ages of 18 and 50. You can also take out our Accident insurance if you are between the ages of 70 and 80 provided that you already have or are taking out other insurance policies with If.

Where does the policy provide cover?

The policy provides cover throughout the world, with certain limitations. If you are staying outside the Nordic countries, you

are not covered for dental injury, travel and treatment costs. The insurance provides cover for occasional stays abroad of up to 12 months. You must inform If if you intend to spend more than 12 months abroad or if you are emigrating from Sweden. If you do not inform If, your insurance cover will end on the day you leave Sweden. In certain cases, If can provide insurance cover during stays abroad.

When does the insurance provide cover?

Accident insurance can provide cover 24 hours a day or only outside working hours, depending on the accident risks involved in your work. Illness and accident insurance provides cover 24 hours a day.

What is insured?

The insurance covers the cases listed in the table above. Compensation for financial disability will only be paid if this is stated in the insurance policy documents.

SUM INSURED

You can choose from four sums: SEK 500,000, 1,000,000, 1,500,000 or 2,000,000. The choice of the sum insured affects the amount of compensation in the case of medical disability, financial disability, scarring, incident insurance, travel and treatment costs and dental injury.

MEDICAL DISABILITY (PERMANENT INJURY)

Our Accident insurance covers medical disability following an accident. Our Illness and accident insurance covers medical disability following an accident and following the illnesses and diagnoses listed in the policy. Examples include cancer, strokes and heart attacks.

Medical disability involves a permanent impairment of the person's physical or mental functions. The impairment is measured in percent and assessed by a doctor on the basis of a table used by all insurance companies. The compensation you receive is the percentage of the sum insured which corresponds to the medical disability. If the level of medical disability is 30% or more for one accident or illness, we will pay double the compensation. The right to double compensation continues until you are 70. If you have chosen a sum insured of SEK 1,000,000 and your medical disability level is 40%, you will receive double compensation, in other words, SEK 800,000. The choice of the sum insured affects the amount of compensation.

SCARRING

Compensation for scarring is paid according to a table drawn up by If. The assessment standard applied by the Road Traffic Injuries Commission is used to determine how conspicuous the scarring is. The compensation that is paid depends on the extent of the scarring, your age and the sum insured you have chosen. One requirement for the payment of compensation is that the scarring has been caused by an accident that needed treatment from a hospital/healthcare centre or other medical care provider with an obligation to keep patient records. The Illness and accident insurance also pays compensation for scarring caused by an in the insurance covered illness.

FINANCIAL DISABILITY (LOSS OF THE ABILITY TO WORK)

Our Accident insurance covers financial disability following an accident. The cover is included in the insurance for people that are under the age of 50 when they take out the policy.

Our Illness and accident insurance covers financial disability following an accident and following the illnesses and diagnoses listed in the policy. Examples include cancer, strokes and heart attacks.

If you have suffered an injury or illness that is so serious that your future ability to work is reduced by at least 50%, this is considered to be financial disability. The reduction in your ability to work is assessed on the basis of your ability to work before you were ill or injured. One requirement is that the illness or accident must also have resulted in at least 8% medical disability. Compensation for financial disability is paid when all the possibilities of retraining for work and rehabilitation have been explored. The choice of the sum insured affects the amount of compensation.

DENTAL INJURY, TRAVEL AND TREATMENT COSTS

If you have an accident, you will be paid compensation for necessary and reasonable medical, dental and travel costs which are not paid by the Swedish Social Insurance Agency or by another source. The maximum compensation is 5% of the sum insured for medical disability. The choice of the sum insured affects the amount of compensation.

FINANCIAL FIRST AID

Our Illness and accident insurance includes financial first aid. If you are suffering from a serious illness covered by the insurance policy, we will pay you a lump sum which you can use for whatever purpose you want. The amount is SEK 50,000 and it is paid as soon as a diagnosis has been made and confirmed by doctors.

Examples of diagnoses that compensation is paid for are cancer, strokes, type 1 diabetes and heart attacks. The coverage diagram in the terms and conditions of the insurance policy shows the illnesses and injuries that compensation is paid for and the criteria that have to be met for the compensation to be paid.

HOSPITALIZATION

If you are admitted to hospital as a result of an accident, the Accident insurance will pay you SEK 100 per day for up to 90 days.

If you are admitted to hospital as a result of an accident or an illness, the Illness and accident insurance will pay you SEK 100 per day for up to 365 days.

INCIDENT INSURANCE

If you have an accident that causes a serious fracture, severe burns or an Achilles tendon rupture, we will pay compensation of 0.5% of the sum insured for medical disability. The choice of the sum insured affects the amount of compensation.

CRISIS THERAPY

We will pay the cost of crisis therapy if you are suffering from a crisis reaction as a result of an insured accident or as a result of the death of a close relative following an accident.

Our Illness and accident insurance will also pay the cost of crisis therapy if you are suffering from a crisis reaction as a result of being diagnosed with an insured illness or as a result of the death of a close relative following an illness.

Compensation is paid for a maximum of 10 treatment sessions per claim.

DEATH

In the event of death as a direct result of an accident, the insurance will pay compensation in the form of a lump sum of SEK 50,000.

Failure to observe the safety regulations may result in your compensation being reduced. For more information about which safety regulations apply for each claim, please refer to the full terms and conditions at if.se. Some of the main limitations on the policy are listed below.
